The "Savoir Faire"
outdoor kitchens

Novara will bring great value to your home and lifestyle. Exclusive and, luxurious, within the reach of a few.

Novara will revalue the design and status of your terrace.

Thanks to its unique technology, you will enjoy an exclusive home with maximum comfort and practicality, with a unique and personalized piece, prepared for extreme environments.

Q-XTREM®

Novara incorporates the unique Q-XTREM® technology. Our brand has developed its technological potential for people who know how to stand out and choose the best product for a status home. Thanks to our unique Q-XTREM® technology, which combines a fully customizable design with exclusive and luxurious aesthetics, together with maximum nautical resistance.

Iconic Pieces with nautic resistance

What is Q-XTREM®?

Maximum customization to achieve exclusive designs. Each house is different and requires different colors and textures to highlight the personality and status of its owners. With the Q-XTREM® manufacturing system, Novara adapts to each space with measurements, shapes and different combinations, creating a luxurious aesthetic that highlights the beauty of a terrace.

Maximum Nautical resistance. Our Q-XTREM® technology, applied to each Novara, makes it possible for our kitchens to remain outdoors in coastal areas. Our coatings and finishes are used even in super luxury yachts, so they will be pieces that will give a high value to your home.

"We were looking for something different, exclusive. We wanted to transfer the spectacular design of the interior to our terrace. To us, Novara is not only a type of outdoor kitchen with an impressive design but also very well thought out in terms of quality and customization. It gives a sense of impressive quality".

"They did a custom project for us. They adapted to the space using their color cards and it was impressive. Now we enjoy it a lot with family and friends. It is outstanding".

"We liked the design when we were looking for ideas to improve the terrace. We would never have imagined that an outdoor kitchen like this existed for our house. Impressive design and quality".

5-year Warranty and LifeTime Support
outdoors, even on the seafront.

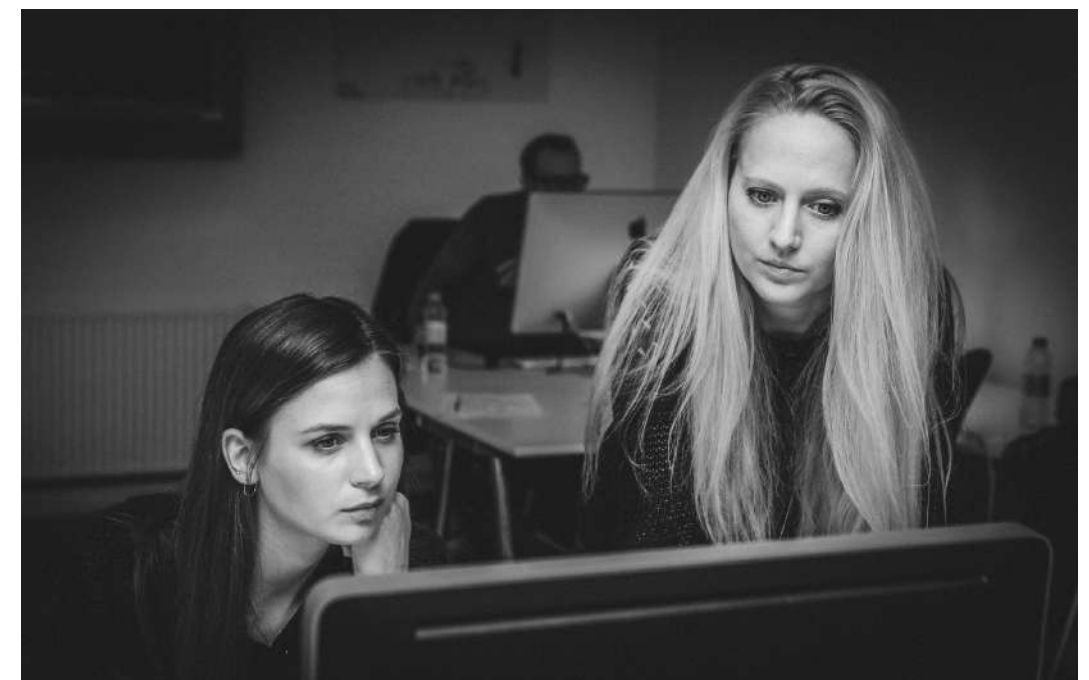

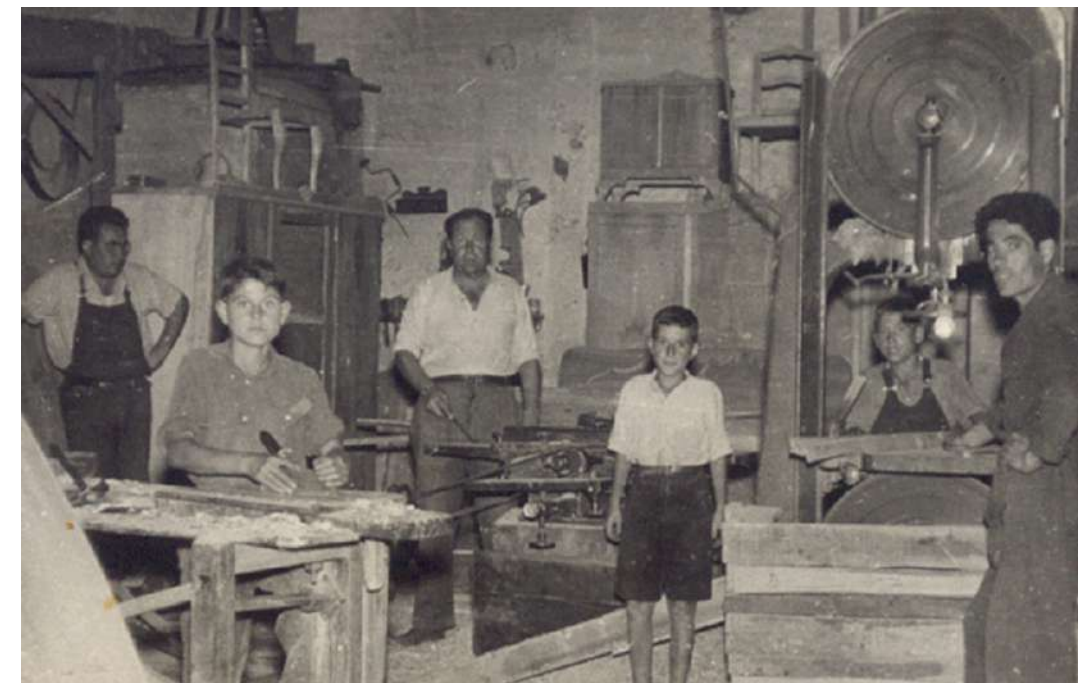

With Novara, you will get total peace of mind with a super-premium product. Novara LifeTime Support means that our company guarantees the supply of any replacement parts you need. So you will always have your kitchen as new as if it was just installed, even after the warranty period.

After several generations of master cabinetmakers creating handcrafted and personalized furniture. In 1983, we started a company specializing in kitchens, always focused on high-quality systems and differentiation.

After years of research and development, we have achieved a unique technology that has allowed us to obtain unprecedented results.

With Novara outdoor kitchens, we can now achieve a luxurious, minimalist, and beautiful design, which is functional, practical, and extremely resistant, even on the seafront, at the same time.
